

# Interdisciplinary Frontiers in Humanities and Arts (IFHA) Clusters

Communication of Scholarship: Use of the Internet and other transformations in scholarly publishing to affect the meaning of “publication” and “scholarship”.

*Cluster Lead: Mario Biagioli, Science & Technology Studies, Law, and History*

Children in Economic Distress: Understanding the long-term effects on children in economic distress.

*Cluster Lead: Marianne Page, Economics*

Enhance Health & Resilience in Immigrant Communities: Discovering the community narratives, practices, and rituals that activate community strength and well-being of racial and ethnic minorities and immigrant communities.

*Cluster Lead: Nolan Zane, Asian American Studies and Psychology*

Gamification: Produce and develop videogame technology to help expand access to the arts, science, health interventions and culture.

*Cluster Lead: Colin Milburn, English*

Managing Temporary Migrations: The effects of economic development, social evolution and cultural exchange of increased international mobility and temporary migration.

*Cluster Lead: Giovanni Peri, Economics*

Public Interest Design: Explores new design methods and solutions to connect human-centered design with social good and to address persistent problems affecting the public.

*Cluster Lead: Susan Verba, Design Cultural*

Workforce Development: Improving the effectiveness of California’s vocational programs in community colleges to provide increased economic opportunities to the workforce.

*Cluster Lead: Michal Kurlaender, Education*
